

A person in a blue suit is holding a tablet computer. The tablet screen displays a control panel interface with various gauges, buttons, and data visualizations. The background is a blurred industrial setting with machinery and pipes. The text 'Outsourcing Solutions' is overlaid in white, and 'Industrial and Office' is overlaid in orange below it.

„We are an innovative partner for the implementation of industry and office processes. The satisfaction of your customers is the standard we set for ourselves.“

TEAMProjekt

Your Partner for Industrial Outsourcing

TEAMProjekt supports you in industrial applications and in your office - including digital solutions and innovative automation.

Outsourcing means for you: We will take up a process, but you don't have to hand it over completely. Depending on the requirements TEAMProjekt develops tailor-made solutions which we implement with our experienced project teams, even inhouse on your premises. You can rely on the autonomous and sustainable implementation and assurance of operations.

TEAMProjekt stands for the permanent operation of outsourced processes - based on a contract for work and labor. We will deploy our own staff and provide the required technical equipment, IT and infrastructure - according to your requirements. We always focus on your needs and goals and will advise you already during the design phase.

We rise to your challenges so that you may fully focus on your core competences. If you take the decision to outsource you need a professional partner and confidence. Place your confidence in us! Rely on TEAMProjekt Outsourcing, a partner with more than 35 years of experience and long-standing clients of renown.

Flexible Production

Rising demands on a cutting-edge production require continuous capacity adjustments in face of increasing cost pressure. TEAMProjekt is the partner you're missing!

We take over single manufacturing steps or entire production sectors allowing us to respond to short-term production fluctuations and to support you actively in your processes.

Assembly Steps **Manufacturing**
Production Support
Production Processes **Packaging**
Tailoring **Filling** **Production Planning**
Production Management

Dynamic Logistics

The dynamic development of logistics requires flexibility and expertise. TEAMProjekt is the partner you're missing!

We relieve you by taking over single operations or entire logistics processes. We develop customized solutions according to your specific requirements and integrate us into your supply chain. We provide the required resources – ranging from infrastructure to the Data Warehouse Management System.

Order Picking **Dispatch** **Warehouse Logistics**
Supply-Chain-Management **Goods Issue**
Intra Logistics **Productions Logistics**
Good Receipts **Contract Logistics** **Distribution Logistics**
Packaging **Quality Assessment**

Reliable Quality

“Two heads are better than one” – we take a closer look with trained eyes. This means for you relief with the help of a neutral unit. TEAMProjekt is the partner you’re missing!

We take over your operative quality assurance assisting you in preparing inspection schedules, performing quality inspections and evaluation the quality data according to your requirements.

Efficient Office

Resource-efficient work is always on our mind. At the same time, administrative processes offer potential for optimization. TEAMProjekt will assist you with the required know-how, supporting you autonomously with equipment and experienced staff.

TEAMProjekt Outsourcing relieves you from time-consuming administrative activities at your reception and in your back office. According to your organizational structure we create appropriate interfaces and take over the assigned tasks in a reliable way.

- Reception Service**
- Conference Service**
- Document Management**
- Back-Office Services**
- Purchasing**
- Telephone Switchboard**
- Secretarial Services**
- Mailroom Services**
- Materials Management**

Added Value through Digitization

Based on our experience from numerous use cases in our daily work for our customers and in our subsections, we have developed smart digital solutions within the context of agile software-engineering procedures. These solutions result in higher efficiency, transparency and new business models.

With our new platform: **TPOWebData©**, we are able to provide you with a digital image of the sectors assigned to us. You will always be informed about performance, quality and progress. We are able to collect data for you, map processes, generate evaluations, and integrate other systems. **TPOWebData©** complies with multiple challenges.

Hardware Provision
Data Interfaces
Automated Billing
Status Messages
Cloud Solutions
Evaluation

Visualization

Data Collection

System Integration

Packaging Technology

Conveyor Technology **Production Technology**

Automated Subsections **Facility Planning**

Autonomous Transport Systems

Warehouse Technology

From the Inception of an Idea to Permanent Operation:

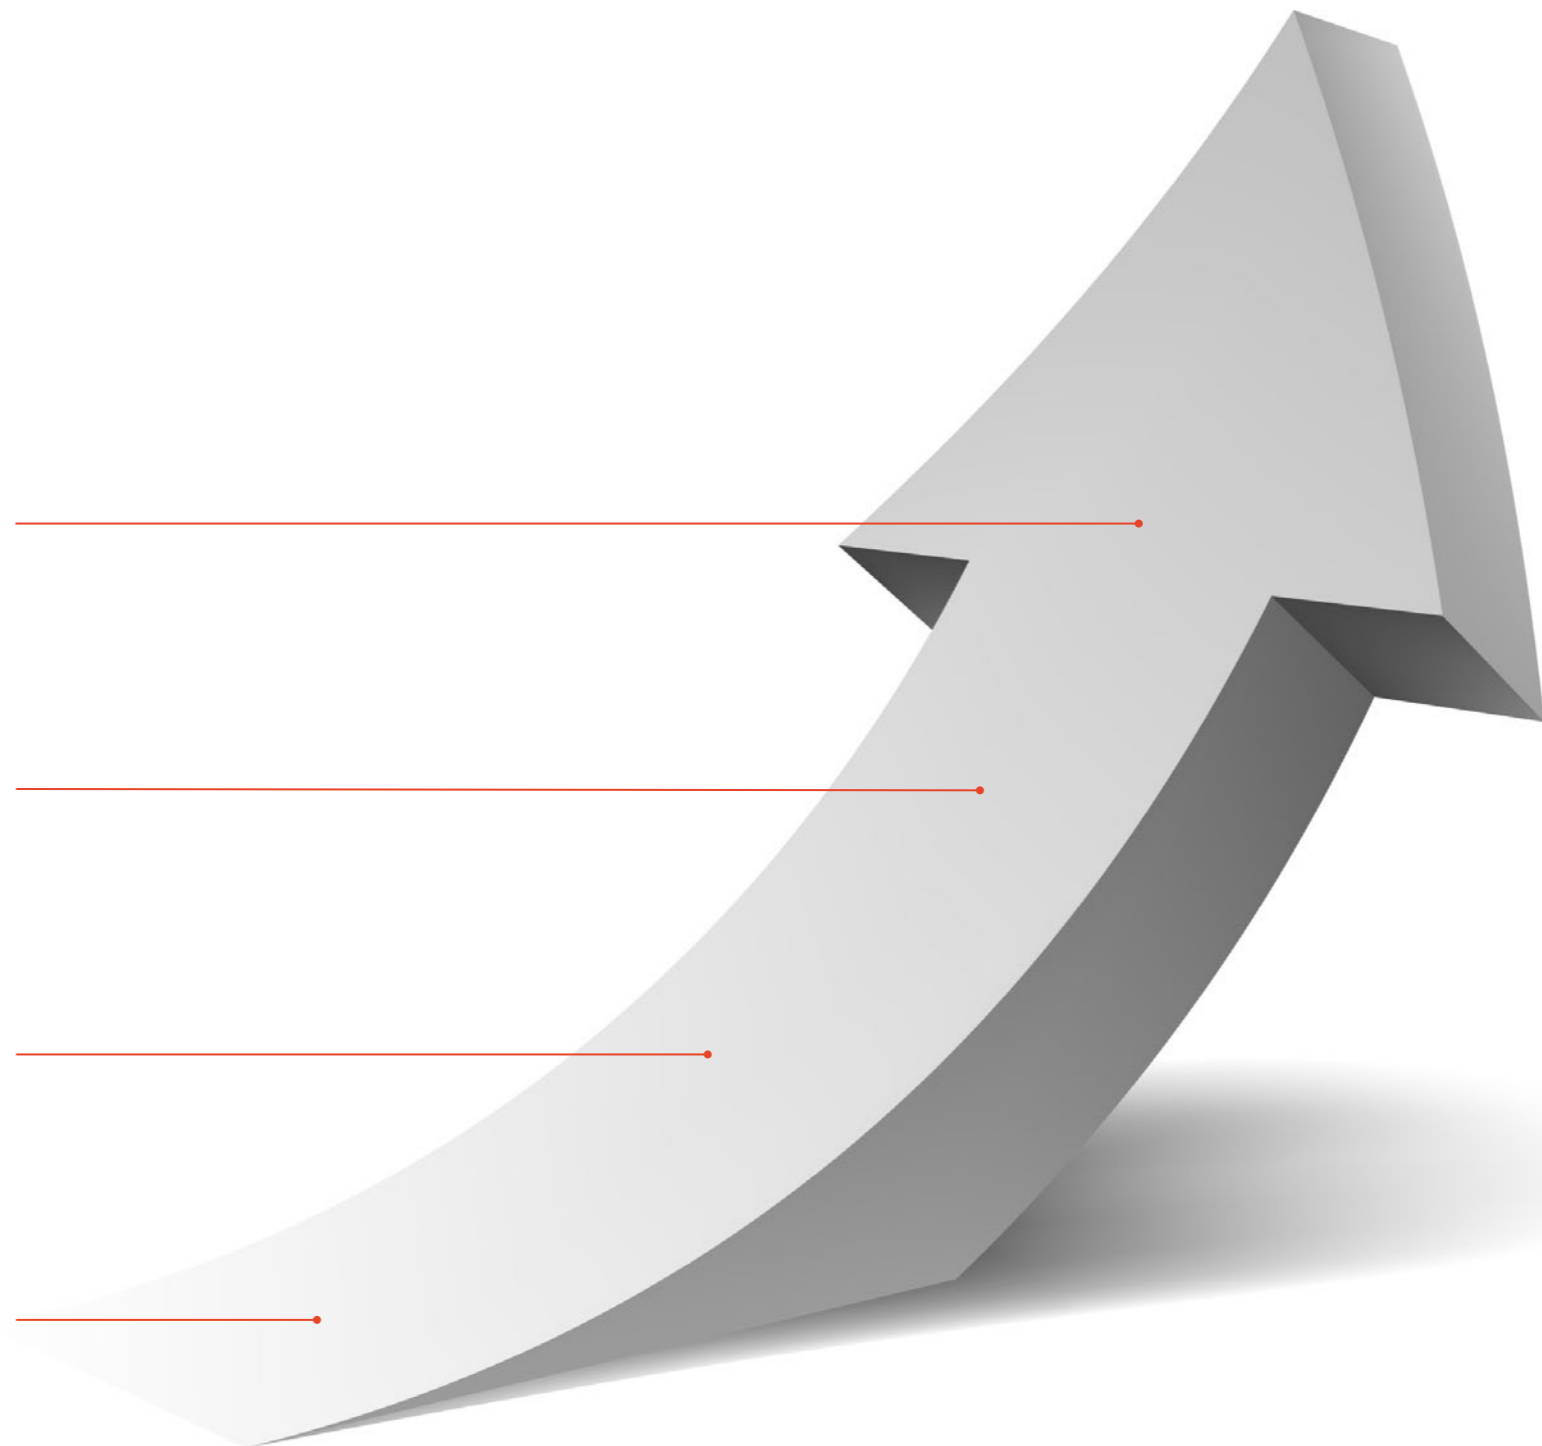

TEAMProjekt Outsourcing looks forward to supporting you at all stages of your project:

We will advise in advance you during an analysis phase on implementation possibilities, advantages and disadvantages as well as opportunities and risks regarding your outsourcing project.

In the second step, we will define the target processes and create a concept for implementation which we will realize within the context of the implementation phase.

This is how we accompany you from the inception of an idea to operation - competently and reliably!
