

BS OHSAS 18001 Certified

BS OHSAS 18001:2007:
Occupational Health and Safety
with a system

BS OHSAS aims at organizing workplaces in an ergonomic and safe way and at promoting the health and motivation of the employees.

BS OHSAS 18001 (British Standard Occupational Health and Safety Assessment Series) is an internationally accepted standard for occupational health and safety.

Integrated Management System

All regulations and tools of BS OHSAS are part of the integrated management system ensuring that occupational health and safety is prevalent at all company levels.

A safe and healthy working environment increases the performance and motivation of the employees.

BS OHSAS 18001 and TEAMProjekt Outsourcing

An effective system for occupational health and safety is the optimal basis for responsibly handling risks, resulting in additional safety for the employees, our customers, occupational health and safety, business processes and services.

Added Value

Owing to TEAMProjekt Outsourcing's specialization in industrial processes we have know-how from different industries. Occupational health and safety play a central role in particular in this respect. As one of few service providers nationwide TEAMProjekt bundled, structured, integrated this knowhow into the integrated management system according to ISO 9001 and BS OHSAS 18001 and had it certified on a voluntary basis.

Your Benefits:

Rely on a service provider that observes and complies with all regulations regarding occupational health and safety that exceed legal requirements, resulting in legal certainty and in the assurance that you can rely on TEAMProjekt even in the worst cases. Preventative measures avoid illness and accidents and lead to less absence, less production downtime and less interruption of work.

Certified by DQS

TEAMProjekt Outsourcing is DIN EN ISO 9001:2008 certified since 2005 and BS OHSAS 18001:2007 certified since 2013.

TEAMProjekt Outsourcing was certified by the German Association for Certification of Management Systems.
