

Flexibility in the Production

TEAMProjekt is the professional partner at your side. Benefit from more than 35 years of experience in industrial outsourcing.

Outsourcing means for you:

We will take over a process, but you don't have to hand it over completely.

TEAMProjekt will develop tailor-made solutions which we will implement with our experienced project teams, even inhouse on your premises. You can rely on the autonomous and sustainable implementation as well as on ensured operation.

We will deploy our own staff - and provide the required IT, technology and infrastructure if needed. In addition, TEAMProjekt will add measurable value through digitization and automation. We will advise you already during the design phase focusing on your requirements and goals.

We count companies from the producing and manufacturing industry among our customers nationwide.
