

Warehouse Services

TEAMProjekt is the professional partner at your side. Benefit from more than 35 years of experience in industrial outsourcing.

Outsourcing means for you:

We will take over a process but you don't have to hand it over completely.

TEAMProjekt will develop tailor-made solutions which we will implement with our experienced project teams, even inhouse on your premises. You can rely on the autonomous and sustainable implementation as well as on ensured operation.

We will deploy our own staff - and provide the required IT, technology and infrastructure if needed. In addition, TEAMProjekt will add measurable value through digitization and automation. We will advise you already during the design phase focusing on your requirements and goals.

Optimization through Implementation

TEAMProjekt has 30 years of experience in warehouse operation. We support you actively in the optimization of your logistics processes. Continuous improvement of processes is everyday life for our well-trained staff.

Warehouse Operation

Ranging from small parts stores to the high-bay warehouse - TEAMProjekt will take over separate process steps or operate your entire warehouse. We also offer intra logistics solutions!

Conceptual Design & Layout Planning

Modern warehouse equipment is the basis of efficient warehouse processes. TEAMProjekt develops product-specific warehousing solutions and implements them for you.
